

ROANOKE, VIRGINIA • TRAFFIC ENGINEER

MGT

TRAFFIC ENGINEER

MGT is pleased to assist the City of Roanoke, Va recruit its next Traffic Engineer. Roanoke is seeking a highly skilled and motivated Traffic Engineer to join its dynamic team. This is an exciting opportunity to contribute to the development and maintenance of the city's transportation infrastructure, ensuring safe and efficient travel for all its citizens.

DISCOVER THE CHARM OF ROANOKE

Nestled in the heart of the beautiful Blue Ridge Mountains, Roanoke offers a perfect blend of natural beauty and vibrant city life. Known as the “Star City of the South,” Roanoke is a hub for arts and culture in Southwest Virginia, home to several museums and cultural institutions. Just a short drive from Virginia Tech and Radford University, Roanoke boasts a diverse economy with a mix of young professionals and retirees. The city's demographics include a range of ethnicities, ages, and socioeconomic backgrounds, contributing to its dynamic and inclusive community.

OUTDOOR RECREATION

Roanoke is a paradise for outdoor enthusiasts. With numerous parks, trails, and rivers, there are endless opportunities for hiking, biking, and water sports. The Blue Ridge Parkway and Appalachian Trail are just minutes away, offering breathtaking views and adventures for all skill levels.

ARTS AND CULTURE

As a cultural hub, Roanoke is home to the Taubman Museum of Art, the Science Museum of Western Virginia, and the Mill Mountain Theatre. The city hosts numerous festivals and events throughout the year, celebrating everything from music and film to food and heritage.

JOIN OUR TEAM AS A TRAFFIC ENGINEER

KEY RESPONSIBILITIES

- **Transportation Planning:** Develop and implement transportation policies and programs that prioritize safety for people of all ages, abilities, and incomes.
- **Innovative Solutions:** Foster a healthier, cleaner environment through innovative bus, bike, pedestrian, micro-mobility, and last-mile options.
- **Traffic Management:** Develop and direct the implementation of standards for maintaining and operating traffic signals, striping and marking.
- **Project Management:** Oversee transportation planning, engineering, systems management, and maintenance projects related to streets, sidewalks, and traffic signals.
- **Capital Improvement Programs:** Develop, recommend, review, and monitor municipal and regional transportation capital improvement programs.
- **Representation:** Represent the city in professional meetings, workshops, and seminars.
- **Consultant Selection:** Oversee the selection of consultants and evaluate long-range needs for transportation.

EDUCATIONAL BACKGROUND

- A bachelor's degree in civil engineering, traffic engineering, planning, public administration, or a related field is required. A Professional Engineer (PE) license is preferred.

EXPERIENCE

- 7 to 10 years of progressive responsibility in transportation planning.
- Strong knowledge of traffic control devices, traffic signal systems, and traffic safety principles.
- Proficiency in traffic analysis software and CAD.
